Professional profile

Full-stack developer with around nine years of experience building web and mobile applications. My most recent experience focuses on eCommerce with Vue.js/Nuxt.js and a Node.js, Strapi and PostgreSQL backend. I have worked on REST APIs, automatic subscription renewals and recurring payments, unit tests with Jest, and the migration from Vue/Nuxt 2 to 3.

Professional experience

TALKUAL | Full-stack Developer

December 2021 - April 2026 · 4 years and 5 months | Bellpuig, Spain | Full-time

- Developed the eCommerce frontend with Vue.js/Nuxt.js, REST APIs with Node.js and Strapi, and data storage with PostgreSQL.
- Built automatic weekly subscription renewals, with payments through Redsys and order creation, applying a DDD approach to this feature.
- Contributed to the migration of the frontend from Vue.js/Nuxt.js 2 to Vue.js/Nuxt.js 3.
- Implemented discount coupons and order management; integrated the delivery company API.
- Wrote unit tests with Jest.
- Collaborated with the designer to implement the new website design.
- Managed tasks in Notion with weekly prioritisation and assignment, addressing requests from marketing and customer support.

Technologies: Vue.js 2 & 3 · Nuxt.js 2 & 3 · Node.js · Strapi · PostgreSQL · REST APIs · Jest · Redsys

Tools and environment: Git · Linux development environment · Heroku · Notion

Movetia | Frontend Developer

May 2020 - December 2021 · 1 year and 8 months | Barcelona, Spain | Full-time

- Maintained an existing web application built with React.js and JavaScript.
- Performed functional testing to check application behaviour.

Technologies: React.js · JavaScript

Ubiquat Technologies | Full-stack Developer

August 2016 - September 2019 · 3 years and 2 months | Igualada, Spain | Full-time

- Developed web applications with AngularJS and mobile applications for Android and iOS with Ionic 4.
- Developed backend services with Node.js and TypeScript.
- Created prototypes with FluidUI and published applications on Google Play and the App Store.

Technologies: AngularJS · Ionic 4 · Node.js · TypeScript · FluidUI
